

## 2016-2017 Northern Saskatchewan Community Violence Threat Risk Assessment and Support Protocol

## **A Multi-Disciplinary Partnership Committed to:**

- Early intervention;
- Violence prevention;
- High-risk assessments; and
- Interventions and supports.

## **Our shared goal is safer schools and communities.**

*This Community Threat Assessment and Support Protocol (CTASP) reflects the work of Kevin Cameron, Executive Director of the Canadian Centre for Threat Assessment and Trauma Response, the Yukon Threat Assessment Program (Y - TAP) and, the Alberta Children and Youth Initiative.*

Appreciation is expressed to the following school boards/partners for sharing their expertise and resources in the initial development of this document:

- Saskatoon Public School Division
- Ministry of Education

**The Community Threat Assessment and Support Protocol was signed on December 13, 2016.**

CTASP partners have recommitted to the partnership by resigning on the following dates:

- December 14, 2018

# **Community Threat Assessment and Support Protocol: A Collaborative Response to Assessing and Responding to Violence Potential**

## **Rationale**

School divisions and their community partners (as listed on page 5) are committed to making our schools and communities safe. The school divisions will respond to student behaviors that may pose a potential risk for violence to students, staff and members of the community. The term “partner” in this document is not intended to mean a legal partnership, but rather a collaborative arrangement.

This protocol supports collaborative planning among educational entities and community partners to reduce violence and reflects safe, caring and restorative approaches. It fosters timely sharing of information about students who pose a risk of violence towards themselves or others. The protocol promotes the development of supportive and preventive plans.

The strength of this school division and community partnership lies in the multidisciplinary composition of the Community Threat Assessment and Support Team (CTAST). The CTAST will strive to share the details of the threatening situation or evidence promptly, to collaborate effectively, and to make use of a broad range of expertise.

This collaborative process will respect the individual’s rights to privacy and the safety of all, to the fullest extent possible.

## Community Partners

Educational entities are the lead team members in the *Community Threat Assessment and Support Protocol*. Community partners include the following agencies and organizations:

### **Government of Saskatchewan:**

Ministry of Justice, Corrections and Policing

- Community Corrections
- Young Offender Program

Ministry of Social Services

- Child and Family Services Delivery

Ministry of Education

- Northern Regional Office

### **Royal Canadian Mounted Police (RCMP):**

- La Ronge Detachment
- La Loche Detachment
- Stony Rapids Detachment
- Sandy Bay Detachment
- Cumberland House Detachment
- Buffalo Narrows Detachment
- Beauval Detachment
- Ile a la Crosse Detachment
- Creighton Detachment

**Mamawetan Churchill River Health Region**

**Keewatin Yatthe Regional Health Authority**

**Athabasca Health Authority**

**Kelsey Trail Health Region**

**Prince Albert Grand Council**

**Meadow Lake Tribal Council**

**Ile a la Crosse School Division #112**

**Creighton School Division #111**

**Northern Lights School Division #113**

## Vision

Violence prevention in our schools and our neighborhoods is a community responsibility. All community partners work together to promote and maintain safety, and strive to prevent violence.

## Statement of Principles

All partners will undertake to follow the protocol. We have a shared obligation to take active steps to reduce violence in our schools and in our communities.

The partners agree to work together for the common goals of reducing violence, managing threats of violence, and promoting individual, school, and community safety. We will do so by proactively sharing information, advice, and supports that reduce violence.

As partners, we will work together for the benefit of our students, and their parents/caregivers by:

- Building working relationships based on mutual respect and trust;
- Working in ways that promote safe, caring and restorative school environments and practices;
- Involving students and their families in planning for services and supports;
- Recognizing that each student has unique strengths and needs that should be considered when developing an appropriate support plan;
- Realizing that working together successfully is a process of learning, listening, and understanding one another; and
- Being patient, trusting and working together to help our students become happy, healthy, active, involved, and caring members of the community.

The overriding goal of the CTASP is risk reduction and violence prevention. We are committed to promoting the safety of students, staff, parents/caregivers and the school community. We will work together to ensure that our schools or other buildings/properties are safe places to learn and work.

This protocol is designed to facilitate communication so that when the Community Threat Assessment and Support Team (CTAST) is activated, appropriate community partners and school divisions may communicate relevant student information.

As part of the protocol design, school divisions and community partners will commit to ongoing staff development in violence threat risk assessment training and program review.

## Key Approaches in Risk/Assessment

### 1. Sharing of Relevant Information

The sharing of information is carried out by any of the team members, on a proactive basis, to avert or minimize imminent danger that affects the health and safety of any person

(See [Sharing Information](#)). Information is shared on a confidential basis and is to be used solely for the purposes of the assessment or for actions directly related to or flowing from the assessment.

### 2. Investigative Mind-Set

This is central to the successful application of the violence threat risk assessment process. Threat assessment requires thoughtful probing, viewing information with professional objectivity, and paying attention to key points about pre-attack behaviours. Personnel who carry out violence threat risk assessments must strive to be both accurate and fair.

Components of an investigative mind-set include:

- Open probing questions;
- Healthy skepticism;
- Attention to pre-attack behaviours;
- Verification of facts, actions corroborated;
- Common sense; and
- Ensuring that information makes sense.

When determining if a threat maker actually poses a risk to the person/target, consideration should be given to the following:

- Is the threat plausible?
- Is the threat an emotionally charged threat?
- What are the precipitating factors?

### 3. Unauthored Threats: Duty and Intervention

Unauthored threats are typically threats to commit a violent act against an individual(s), specific group, or site (i.e. the school/campus). They may be found written on bathroom walls or stalls, spray painted on the side of schools/campus buildings, posted on the Internet or in letters left in a conspicuous place etc.

In the field of school based violence threat risk assessment, the lack of ownership (authorship) of the threat generally denotes a lack of commitment. Nevertheless, there are steps that should be followed to:

- a. Assess the unauthored threat;
- b. Attempt to identify the threat maker; and
- c. Avoid or minimize the crisis/trauma response.

Violence Threat Risk Assessment teams should consider the following in determining the initial level of risk based on the current data (i.e. the language of threat):

### Language of Commitment

- Amount of detail (location where the violence is to occur, target(s), date and time the violence is to occur, justifications, etc.);
- Threatened to do what with what (“kill”, “murder”, “ruin your lives”, “shank”, “shoot”, etc.);
- Method of delivery of the threat (who found/received the threat, when did he/she receive it, where did he/she receive it, who else did he/she tell and who else knows about it?); and
- Is the threat clear, direct, plausible, and consistent?

### Identifying the Threat Maker

In many cases the author is never found but steps that can be taken to identify the author(s) are:

- Handwriting analysis;
- Word usage (phrases and expressions that may be unique to a particular person or group of people [street gang, club, sport team, etc.]); and
- Spelling (unique errors or modifications).

### Contra-indicators:

Some authors will switch gender and try to lead the reader to believe they are someone else as a setup.

Some individuals who write unauthored “hit lists” embed their names in the list of identified targets.

Depending on the severity of the threat, some or all staff members may be asked to assist in analyzing the unauthorized threat.

Depending on the severity of the threat, some students may be asked to give their opinion regarding the origin and authorship of the threat.

## **4. Building Capacity**

Threat Assessment Teams (TAT) and community partners will receive violence threat risk assessment training. Along with Level I and Level II VTRA training school divisions, post-secondary institutions and community partners may provide additional training opportunities to support the work of the Community Threat Assessment and Support Protocol (i.e. genogram information, interviewing skills and refresher training).

## **5. Program Review**

This protocol will be reviewed annually by the Community Threat Assessment and Support Advisory Group which is comprised of representatives from school divisions and community partners.

## **6. Contact List**

The chair, or designate, of the Community Threat Assessment and Support Protocol, will maintain an up-to-date contact list of the lead team members and will distribute a copy of the list to all community partners. As well, school division summer contacts for July and August of each year will be determined and provided to community partners.

## Violence Threat Risk Assessment Response

When a student engages in behaviours or makes threatening comments or gestures that may result in injury to self and others in our community, the Threat Assessment Team (TAT) or Community Threat Assessment and Support Team (CTAST) will respond. For school division response refer to:

- [Appendix B – Responding to Student Threat Making Behaviour: A School Staff Guide](#)
- [Appendix C – Responding to Student Threat Making Behaviour: A Protocol Partner Guide.](#)

This *Community Threat Assessment and Support Protocol* is based on The Canadian Centre for Threat Assessment and Trauma Response's (CCTATR) Model of Violence Threat Risk Assessment (VTRA). The VTRA follows a three-step process:

The VTRA is the combination of early Secret Service research around school-based threat assessment and general violence risk assessment. The work reflects scientific research conducted by a number of disciplines including medical and mental health professionals, law enforcement, and specialists in the field of threat management.

The three stages of the VTRA combine all appropriate threat assessment concepts and risk assessment factors. This protocol allows for a comprehensive determination of violence risk posed and the identification of appropriate interventions. It prevents under-reaction by professionals who may use general violence risk assessment tools as the unilateral measure to determine risk of violence of a student. The three stage approach promotes understanding that some individuals may not pose a risk for general violence, yet may be moving rapidly on a pathway of violence toward a particular target they consider justifiable.

**Stage 1: Data collection and immediate risk reducing interventions** are performed by the Threat Assessment Team (TAT). The initial data collection is often accomplished in one to two hours. It focuses on gathering case specific data using the Stage I Violence Threat Risk Assessment Report Form (See [Appendix F](#)), and implementing risk reducing interventions.

**Stage 2: Comprehensive multidisciplinary risk evaluation** is focused on further data collection beyond the initial data set obtained by the Stage I TAT. The Stage 2 Community Threat Assessment and Support Team (CTAST) may involve some or all of the following: additional law enforcement and/or protective services resources, psychology, psychiatry, mental health, child protection, young offender worker, human resources personnel, and others. At Stage 2, the CTAST members work in collaboration with the Stage 1 TAT to conduct the formal risk assessment and evaluation. Stage 2 includes the use of formal, structured professional instruments, concepts, tests, and measures by the appropriate Threat Assessment Unit.

**Stage 3 Multidisciplinary intervention** is the formal meeting of the Stage 1 TAT and Stage 2 CTAST members following a formal threat risk assessment. The purpose of Stage 3 is to develop and implement a comprehensive, multidisciplinary intervention and management strategy.

## Activation of the School and Community Threat Assessment Team

To facilitate timely activation of the School TAT or Community Threat Assessment and Support Team (CTAST), each community partner will identify its lead CTAST member(s), and provide contact information to the CTASP chair. The CTASP chair is responsible for sharing contact information with the lead CTASP members. The school superintendent, or designate, will activate the CTAST and will be responsible for calling lead CTASP members who may have information specific to that threat situation (See [Appendix C](#)). When staff members of a partner agency determine the need to activate the CTASP, they will notify their designated lead CTAST member who will activate the CTASP (See [Appendix D](#)). CTAST members will, at all times, take any actions necessary to facilitate immediate safety, without delay, regardless of the involvement or availability of other CTAST members.

### 1. Activation of the School Threat Assessment Team (School TAT)

The School TAT will consist of the principal and/or vice principal, school social worker/school counsellor and an assigned police investigator from the police agency having jurisdiction. School TAT members will respond after the immediate threat to student/staff safety has been contained. The School TAT will assess whether a risk to student/staff safety still exists, and develop an intervention plan to support student(s) involved, the greater student body, staff and community.

The school superintendent will be consulted and will participate in the violence threat risk assessment process as required.

### 2. Activation of the Community Threat Assessment and Support Team: School or Protocol Partner Initiated

#### Stage One

The school administrators and police will:

- Take immediate action to reduce risk;
- Consult with designated school division;
- Complete the Stage I Violence Threat Risk Assessment Report Form and follow the Responding to Student Threat Making Behaviour: A School Staff Guide (See [Appendix B](#)); and
- Arrange 6 week and 6 month intervention plan follow up.

#### Stage Two

When it has been determined that a CTAST will be convened, the school superintendent/designate in consultation with other appropriate school personnel will:

- Determine the appropriate community partners and contact the agencies' lead staff;
- In a timely manner, determine the date, time and location of the CTAST meeting;
- Collect data and use the CTAST report form format;
- Evaluate level of risk to the safety of students, staff, community; and
- Make recommendations that reduce risk and provide student/family support.

All CTAST members will share pertinent information, and review all data, including data obtained from other sources (i.e. students and parents/guardians).

### Stage Three

As a result of the school division and community partner evaluation of risk, the school division and partners will develop a risk management/student intervention plan. The risk management/student intervention plan will be developed collaboratively and responsibility for the implementation of the plan will be assigned by the CTAST.

A follow-up meeting date will be determined by the partners in order to assess the implementation and effectiveness of the risk management/student intervention and support plan.

## **Roles of Community VTRA Partners**

### **School principal or designate**

*The school principal or designate will:*

- Be the School TAT leader;
- Call and coordinate the School TAT and inform school superintendent;
- Be responsible for the completion of the Stage I VTRA report form (See [Appendix F](#))
- Complete Stage I: Data collection and immediate risk reducing intervention within hours;
- Complete Stage I Stage I VTRA report form (see [Appendix F](#)) within 24 hours;
- Contact the school superintendent to discuss possible activation of the CTAST;
- Follow up and coordinate intervention plans developed by the team;
- Notify appropriate school personnel of the completion of the VTRA;
- Share copies of the completed Stage I VTRA report form with the CTAST partners who were involved in the assessment and intervention plan;

### **School Social Worker/School Counsellor**

*The school social worker will:*

- Assist in data gathering as assigned by the principal;
- Assist the principal in Steps 6 – 10 of the Stage I VTRA report form (See [Appendix E](#));
- Be available for consultation on general issues regarding violence threat risk assessment procedures relating to mental health;
- Assist in developing plans or other interventions (i.e. behaviour plans, safety plans), and in facilitating access to programs or resources to reduce the risk of violence and respond to the student's educational needs if consent has been obtained; and
- Help families obtain needed assistance.

### **Central Office/Division Office staff**

*Central Office/Division Office staff will:*

- Be designated by the superintendent with responsibility for Violence Threat Risk

- Assessment as the CTAST lead;
- Consult with the principal, School TAT and superintendents involved;
- Contact CTAST members to facilitate consultations, and conduct interviews as required, except in criminal investigations;
- Assist when asked in completing the Threat Assessment Report Form questions Steps 1-11 (See [Appendix F](#)); and
- Follow-up on recommended intervention plans as outlined in Step 11 (See [Appendix F](#)).

## **RCMP**

*The Police Officer will:*

- Be involved in School TAT;
- Investigate and determine whether a crime has been committed, and if charges are appropriate or warranted;
- Conduct a police investigation;
- Generate a police occurrence report; and
- Interview the threat maker and witnesses when a criminal offence has occurred.

## **Fire and Protective Services**

*Fire and Protective Services will:*

- Be involved in worrisome behaviours relating to an unusual interest in fire and all incidents involving fire setting.

## **Community Partner staff**

*The community partner staff will:*

- Have an appropriate staff member participate in the CTAST;
- Participate in completion of the Threat Assessment Report Form (See [Appendix F](#));
- Participate in a review of School TAT findings; and
- Participate in developing any recommended intervention plans as outlined in Step 11 (See [Appendix F](#)).

In most cases, the student behaviour that activates the CTASP will be observed in, or affect, the school. Therefore, whenever possible, CTAST meetings will occur on school division premises. The lead CTAST member will be the superintendent with responsibility for Violence Threat Risk Assessment or designate. The superintendent responsible for that school, and school administration, may also be part of the CTAST (See [Appendix C](#)).

**Trauma Response:** After a threat or an act of violence has occurred, school divisions' tragic event or crisis response teams and community partner staff may be called upon to plan or provide post trauma counselling and interventions for students and staff.

## Sharing Information

The general intent of access to information and protection of privacy legislation is to regulate the collection storage, use and disclosure of personal information. (Note: When the term “personal information” is used in this document, this includes personal health information.) **Wherever possible and reasonable, consent to disclose personal information should be obtained.** Valid consent does not exist unless the individual knows what he/she is consenting to, and understands the consequences of the intended disclosure. The individual must be made aware that he/she can withdraw consent at any time by giving written or verbal notice. School divisions and community partners are committed to the sharing of relevant information to the extent authorized by law.

The presumption is that all information shared by partners about individual students and families is personal information and should be treated with a high level of confidentiality. Once sharing of information has occurred each partner who receives the information will be responsible for ensuring appropriate storage, use and disclosure of such information in accordance with the laws, regulations, policies and procedures applying to that partner. Each partner will be responsible for the education of personnel in this regard.

It is vital to note, however, that legislation allows the release of personal information if there is imminent threat to health and safety. To make parents/guardians/caregivers and students aware of the protocol to be followed in such cases, school divisions will provide yearly *Violence Threat Risk Assessment Notification* to students and their parents/guardians/caregivers (See [Appendix E](#)). This notification will be posted on school division websites.

## When to Share Information

Green Light	Yellow Light	Red Light
<p><b>Generally speaking, and subject to the guidelines of LAFOIP, relevant personal information CAN be shared under one or more of the following circumstances:</b></p>	<p><b>In any of the following circumstances, obtain more information and receive direction from a supervisor:</b></p>	<p><b>Information can NEVER be shared under any of the following circumstance:</b></p>
<ul style="list-style-type: none"> <li>▪ <b>With written consent (see p.10 regarding Youth Criminal Justice Act [YCJA] exclusion);</b></li> <li>▪ <b>To avert or minimize imminent danger to the health and safety of any person;</b></li> <li>▪ <b>To report a child who might need protection under the Child and Family Services Act;</b></li> <li>▪ <b>By order of the Court;</b></li> <li>▪ <b>To support the rehabilitation of a young person under the Youth Criminal Justice Act (see p.10 regarding YCJA);</b></li> <li>▪ <b>To ensure the safety of students and/or staff under the YCJA (see p.10 regarding YCJA);</b></li> <li>▪ <b>To cooperate with a police and/or a child protection investigation.</b></li> </ul>	<ul style="list-style-type: none"> <li>▪ <b>Where consent is not provided or is refused but where there may be a health or safety issue for any individual or group(s);</b></li> <li>▪ <b>When asked about a report of criminal activity given to the police;</b></li> <li>▪ <b>When asked to share YCJA information from records, where there is a demand or request to produce information for a legal proceeding;</b></li> <li>▪ <b>When a professional code of ethics may limit disclosure.</b></li> </ul>	<p><b>There is a legislative requirement barring disclosure;</b></p> <p><b>No consent is given and there is no need to know or overriding health/safety concerns;</b></p> <p><b>Consent is given but there is no need to know nor overriding health/safety concerns.</b></p>

### Sharing Information: Legislation and Case Law

Each partner involved in an assessment will be responsible for determining the threshold for sharing information with other partners. Each partner will be responsible for ensuring compliance with applicable legislation.

**Local Authority Freedom of Information and Protection of Privacy Act (LAFOIP)** “Disclosure of personal information: Subject to any other Act or regulation, personal information in the possession or under the control of a local authority may be disclosed: where necessary to protect the mental or physical health or safety of any individual.” (L- 28 (2) (l)).

### **Health Information Protection Act (HIPA)**

“A trustee may disclose personal health information in the custody or control

of the trustee without the consent of the subject individual in the following cases: where the trustee believes, on reasonable grounds, that the disclosure will avoid or minimize a danger to the health or safety of any person.” (1999, cH-0021, s27 (4) (a)).

### **Freedom of Information and Protection of Privacy Act (FOIP)**

FOIP applies to all provincial government ministries and agencies in Saskatchewan including Child and Family Services and the Ministry of Justice. Its terms are similar to LAFOIPP and allow disclosure of information when the public interest in disclosure clearly outweighs any invasion of privacy or when disclosure would clearly benefit the individual to whom the information relates.

### **Youth Criminal Justice Act (YCJA)**

Section 125(6), YCJA enables information in a Youth Criminal Justice Act record to be shared, within the access period, with any professional or other person engaged in the supervision or care of a young person – including the representative of any school division, or school or any other educational or training institution only in limited circumstances. Information may be shared to ensure the safety of staff, students or others, to facilitate rehabilitation/reintegration of the young person, or to ensure compliance with a youth justice court order or any order of the provincial director respecting reintegration leave. Such sharing of information does not require the young person’s consent.

The recipient of youth justice information is responsible for ensuring compliance with legislated restrictions on its use, storage and disposal under the YCJA ss.126 (7). This provision requires that the information must be kept separate from any other record of the young person, that no other person must have access to the information except as authorized under the YCJA or for the purposes of ss.125 (6), and that it must be destroyed when it is no longer needed for the purpose for which it was disclosed.

### **Supreme Court Decision: R. V. M. (M. R.), (1998) 35. C. R. 398**

“The Supreme Court of Canada (1998) has established legal precedent by ruling (in R. vs M (M. R)) that in certain situations, the need to protect the greater student population supersedes the individual rights of the students. The ruling explicitly acknowledges that school officials must be able to act quickly and effectively to ensure the safety of the students and to prevent serious violations of the school rules.” **(p. 15)**

Reference: Cameron, K. (2011) *Community Protocol for Violence Threat Risk Assessment (VTRA) and Intervention(9th Edition)*

## Documentation

The Stage I Violence Threat Risk Assessment Report Form (See [Appendix F](#)) is completed by the school principal and serves as the official written record of the school/community meeting called to discuss student behaviour and to determine follow up plans or interventions. The written report and/or information from the meeting may be shared with others at the discretion of the school superintendent when it is deemed to be in the best interests of the student or others.

If the plan requires further action outside of the school, the appropriate organization may receive a copy of the original report. In such instances, it is essential that all organizations make reasonable efforts to ensure that their protocols for the sharing, storage and retention of this information and this report are consistent with the following principles:

- At the minimum, partner organizations should ensure their personnel follow all requirements of any privacy legislation which may pertain to their agency;
- Information written and reported must be kept confidential and is intended to be shared with others on a “need to know” basis only;
- Information is shared only for the purpose for which it was created; and
- The written report is stored securely and retained only for the length of time required for the purpose for which it was created.

Organizations must ensure that policies and/or procedures are in place to protect the confidentiality of all information received by the organization and its employees through the assessment process. Organizations should take steps to ensure that all employees involved in the assessment process have a clear understanding of the requirements for confidentiality and of the consequences for breaches of confidentiality. There should be appropriate enforcement by the organization of their policies and procedures regarding confidentiality.

Requests to amend information or requests for access to information made by parents, students, or third parties will be addressed in accordance with the legislation applying to the agency to whom the request is made.

## Community Agency Reports of Information of Students Posing Significant Risk of Harm

If community agency personnel - such as Fire, Police, Health or others - believe they have knowledge of worrisome behaviour of a student which could pose a risk of harm to the public or others, they are advised to directly contact the student's school principal. Upon receipt of this information and further investigation, the principal may determine to take this information further than the school or to address the matter internally. If the behaviour is deemed to be of a medium or high risk, the principal will immediately call his/her school superintendent and activate the VTRA process. Following this review, a decision will be made whether to initiate the *Community Threat Assessment and Support Protocol*.

If the agency does not have knowledge of the student's home school, contact may be made directly with the superintendent with responsibility for Violence Threat Risk Assessment to share the information and to determine the appropriate course of action.

## External Communication

Safe schools/campuses operate as open systems and promote the appropriate sharing of information. To keep school/campus communities safe and caring, staff, parents/guardians/caregivers, students and community members must report all threat related behaviours to the school principal/vice principal or TAT member.

As part of the threat assessment process, school division communications personnel and Police Services will consult with one another to coordinate any public messages via the media.

	<b>Stage 3 – Multidisciplinary Intervention</b>
	<b>CTAST- School TAT, Superintendent with responsibility for VTRA , police and community partners</b>

Note: When a community partner determines the need to activate the CTASP, that person will notify his/her designated lead team member who will follow the procedure as outlined in *Responding to Student Threat Making Behaviour: A Protocol Partner Guide.* (see Appendix D).

## Appendix C

### Responding to Student Threat Making Behaviour: A Protocol Partner Guide

Note: When a community partner determines the need to activate the CTASP, that person will notify his/her designated lead team member who will follow the procedure outlined below.

## **Appendix D**

### *Definitions*

#### **High risk behaviours**

High risk behaviours express intent to do harm or act out violently against someone or something. High risk behaviours include but are not limited to: possession of weapon/replica, bomb threat plan, verbal/written or Internet threats to kill/injure self or others, fire setting, threatening violence and hate motivated violence.

**Note:** Do not be deceived when traditional risk behaviours do not exist. There is no profile or checklist for the high risk student. Some students who actually pose a threat display very few traits of the traditional high risk student. Identify when homicidal and suicidal domains exist together. This is critical to the development of a response to the incident, including the creation of a student intervention plan.

#### **Immediate Threat**

In the case of immediate threat, staff will **CALL 911** and take the appropriate emergency response measures for that specific organization.

#### **Risk Assessment**

A risk assessment is typically a more lengthy process that involves a number of standardized tests and measures that go beyond the scope of the school-based multidisciplinary Threat Assessment Team's (TAT) advisory team assessment. After the "initial level of risk" is assessed and "immediate risk reducing intervention" has occurred, a further risk assessment may be required. Therefore, risk assessment is the process of determining if a student of concern may pose a further risk to some known or unknown target(s) at some unknown period in time. The student may be evidencing increasing violent ideation or behaviours that suggest that the frequency or intensity of his/her violence or violence potential may be escalating. Unlike the immediate intervention, the risk assessment is meant to be a more comprehensive evaluation of all risk reducing and risk enhancing factors affecting the student's functioning and to use that data to guide longer term intervention and treatment goals.

#### **Threat**

A threat is any expression of intent to do harm or act out violently against someone or something. Threats may be spoken, written, drawn, and symbolic, posted on the internet (Twitter, Facebook, etc.) or made by gesture only. Threats may be direct, indirect, conditional or veiled.

### **Threat Assessment**

Threat assessment is the process of determining if a threat maker (someone who utters, writes, emails, etc., a threat to kill a target or targets) actually poses a risk to the target(s) being threatened. Although many students and adults engage in threat-making behaviour, research indicates that few actually pose a risk to harm the target being threatened. Multidisciplinary Threat Assessment Teams (TATs) engage in a data collection process, through semi-structured interviews, to determine “initial levels of risk” that may be posed and plan necessary risk-reducing interventions. Although a student of concern may be assessed as low risk, there may be data that indicates a more comprehensive risk assessment is required.

### **Worrisome Behaviour**

Worrisome behaviour is defined as those behaviours that cause concern and may indicate that a student is moving toward a greater risk of violent behaviour. (The majority of behaviours fall into this category.) Worrisome behaviours include but are not limited to violent content in drawings and stories/journals, making vague threatening statements, unusual interest in fire, significant change in anti-social behaviour and significant change in baseline behaviour.

Worrisome behaviours may be an early warning sign of the development of more serious high risk behaviours. Worrisome behaviours are a “cry for help” and require a timely follow-up with the student, teachers, counsellors, school social worker, other school staff and the student’s parents/guardians/caregivers.

### **Violence**

Violence is a continuing process of thoughts and behaviours that is dependent on the interaction between **a person** who is inclined to violence; **a stimulus** that causes the violence; and **a setting** that allows for violence or does nothing to prevent a violent act from occurring. Violence is dynamic and multidimensional. It is a process that is developed over time.

## Appendix E

Northern Lights School Division # 113 Violence Threat Risk Assessment Notification and Process

NORTHERN LIGHTS  
SCHOOL DIVISION No. 113

Bag Service #6500

La Ronge, Saskatchewan

S0J 1L0

Telephone: (306) 425-3302

Fax: (306) 425-3377

Dear Parents/Guardians/Caregivers:

Northern Lights School Division is committed to providing school environments that are safe and caring places for students, staff, school visitors, and community members. We also work with families and community partners to provide the kinds of supports the young people in our schools require to be safe and healthy at school.

On a daily basis we model appropriate behaviour and reinforce positive choices. Students are encouraged to take responsibility for their behaviours and to accept the consequences of their actions. As part of our safe and caring strategy it is important for you to know that we will respond to student behaviours that pose a potential risk to the health and well-being of other students, staff, and members of the community. When students behave inappropriately, principals use progressive discipline to help students take responsibility for their actions, change their behaviour, and learn from their mistakes.

We are very proud to say that we have worked with a number of community organizations to develop the *Northern Saskatchewan Community Violence Threat Risk Assessment and Support Protocol*, which we launched in December 13, 2016. This document enables community partners to proactively share information and advice and to use their broad range of expertise to provide the appropriate supports to our youth and their families. Every Northern Lights School has a team that includes the principal/vice principal, school social worker, and teacher to work with the protocol. For information on the protocol, please visit our public website at [www.nlsd113.com](http://www.nlsd113.com) (look under new links on home page).

You will also find a brochure on the same page of our website that outlines the steps we will take when working with this protocol. If for some reason there is a reluctance to support or participate in the protocol, the appropriate steps may continue in order to ensure a safe and caring learning environment for all. Your school principal will be happy to answer any questions you may have about this process.

We look forward to working with you, and with our community partners, to provide safe and caring schools where ongoing educational improvements and student engagement are priorities in the cultural context of Northern Saskatchewan.

Sincerely,

Dr. Ken Ladouceur  
Director of Education

## Appendix F

### Threat Assessment Report Form

(Data Collection and Immediate Risk Reducing Interventions)

**Violence/Threat Making Behaviours** (Examples of high-risk behaviours addressed in this protocol include but are not limited to):

- Serious violence or violence with intent to harm or kill
- Verbal/written threats to kill others (“clear, direct, and plausible”)
- Internet (Facebook, YouTube, etc.) text messaging, threats to kill others (refer to Appendix B of the National Training Protocol for abbreviations commonly used on the Internet and texting)
- Possession of weapons (including replicas)
- Bomb threats (making and/or detonating explosive devices)
- Fire Setting
- Sexual intimidation or assault
- Gang related intimidation and violence

Student: \_\_\_\_\_ School: \_\_\_\_\_

DOB: \_\_\_\_\_ Student Number: \_\_\_\_\_ Grade: \_\_\_\_\_ Age: \_\_\_\_\_

Parent/Guardian Name(s): \_\_\_\_\_

Date of Incident: \_\_\_\_\_

TAT Members: \_\_\_\_\_

Principal: \_\_\_\_\_ Superintendent: \_\_\_\_\_

#### Three Primary Hypotheses in VTRA:

**One:** Is it a conscious or unconscious “Cry for Help”?

**Two:** Conspiracy of two or more! Who else knows about it? Who else is involved?

**Three:** Is there any evidence of fluidity?

#### Pre-interview Considerations

i) When possible, interview the Threat Maker(s) or Student of Concern **after** initial data has been collected such as locker check, interviewing the individual who reported the threat as well as the police member doing an occurrence check for prior police contacts. This will help to avoid the “uni- dimensional assessment” and provide the interviewer(s) with data to develop case specific hypotheses and verbatim questions that can be asked in a strategic VTRA interview to test those hypotheses.

ii) There should **never** be more than two people in the room interviewing the Threat Maker or Student of concern.

iii) Remember to distinguish between **Assessing the Threat** versus **Assessing the Threat Maker**.

**Step 1:**

**School Administrators: make sure you know the whereabouts of the target(s) and threat maker(s) and address any immediate risk factors if they exist.**

- If necessary, appropriately monitor and/or detain the student(s) of concern until the police member of the team is present.
- Do not allow “student(s) of interest” access to coats, backpacks, desks, or lockers.
- Determine if the threat maker has immediate access to the means (knife, gun, etc.).

**Step 2:**

**School Administrators: If appropriate, check the**

- Locker, backpack, desk, etc.

**Step 3:**

- Call the “trained” VTRA police member; share initial data and police will determine if a history of weapons possession, use, or violence is noted in police accessible records.**

**Step 4:**

- School Administrator will notify the Superintendent of Education contact of the Stage I Team activation.**

**Step 5:**

- Principal (V.P.) and VTRA Police member, in collaboration with the counseling member will determine who will strategically interview sources of data including all participants directly and indirectly involved as well as “hard” data collection as outlined below.**

**Immediate Data may be obtained from multiple sources including:**

- Reporter(s)
- Target(s) Witnesses
- Teachers and other school staff (secretaries, teacher assistants, bus drivers, etc.)
- Friends, classmates, acquaintances
- Parents/caregivers (Call both parents)
- Current and *previous* school records (Call the sending school)
- Police record check
- Check the student(s), locker, desk, backpack, recent text books/assignment binders, cars, etc., for data consistent with the threat making or threat-related behaviour
- Check/Search or question parents/caregivers about the student(s), bedroom etc.,
- Activities: internet histories, diaries, notebooks
- Other

**Step 6:  
The Semi-Structured Interview Format**

<b>Series I Questions (The Incident)</b>	<b>Notes:</b>
Where did the incident happen and when?	
How did it come to the interviewer's attention?	
What was the specific language of the threat, detail of the weapon brandished, or gesture made?	
Who was present and under what circumstances did the incident occur?	
What was the motivation or perceived cause of the incident?	
What was the response of the target (if present) at the time of the incident?	
What was the response of the others who were present at the time of the incident?	

<b>Series II Questions (Attack-Related Behaviours)</b>	<b>Notes:</b>
Has the student (subject) sought out information consistent with their threat making or threat-related behaviour?	
Have there been any communications suggesting ideas or intentions to attack a target currently or in the past?	
Has the student (subject) attempted to gain access to weapons they have threatened to use?	
Has the student (subject) developed a plan and how general or specific is it (time, date, identified target selection, site selection, journal or justifications, maps and floor plans	
Has the student (subject) been engaging in suspicious behaviour such as appearing to show an inordinate interest in alarm systems, sprinkle systems, video surveillance in schools or elsewhere?	

Has the student engaged in rehearsal behaviours, including packing or brandishing fake but realistic looking weapons, air rifles, pistols, or engaged in fire setting (i.e. lighting fire to cardboard tubes cut and taped to look like a pipe bomb, etc.)?	
Is there any evidence of attack related behaviours in their locker, backpack, car trunk, etc. at school or bedroom, shed, garage, etc. at home?	
Have others been forewarned of a pending attack or told not to come to school because "something big is going to happen?"	

<b>Series III Questions (The Threat Maker Typology)</b>	<b>Notes:</b>
Does the threat maker (subject) have a history of violence or threats of violence? (Traditional Predominantly Behavioural Type, Traditional Predominantly Cognitive Type, Mixed Type, Non- Traditional).	
If yes, what is the frequency, intensity and recency (FIR) of the violence?	
What is their current human target selection and site selection? Does it denote an increase in BASELINE behaviour?	
Do they have a history of depression or suicidal thinking/behaviour?	
Is there evidence of fluidity?	
Does the threat maker (subject) use drugs or alcohol?	

<b>Series IV Questions (The Target)</b>	<b>Notes:</b>
Does the target have a history of violence or threats of violence?	
If yes, what are the frequency, intensity and recency of the violence?	
What has been their past human target selection?	
What has been their past site selection?	
Is there evidence the target has instigated the current situation?	

<b>Series V Questions (Peer Dynamics)</b>	<b>NOTES:</b>
Are others involved in the incident that may intentionally or unintentionally be contributing to the justification process?	
Who is in the threat makers (subjects) peer structure and where does the threat maker (subject) fit (i.e. leader, co-leader, follower)?	
Is there a difference between the threat maker's individual baseline and their peer group baseline behaviour?	
Who is in the target's peer structure and where does the target fit (i.e. leader, co-leader, follower)?	
Is there a peer who could assist with the plan or obtain the weapons necessary for an attack?	

<b>Series VI Questions (Empty Vessel)</b>	<b>Notes:</b>
Does the student of concern (subject) have a healthy relationship with a mature adult?	
Does the student have inordinate knowledge versus general knowledge or interest in violent events, themes, or incidents including prior school-based attacks?	
How have they responded to prior violent incidents (local, national, etc.)?	
What type of violent games, movies, books, music, and internet searches does the student fill themselves with?	
Is there evidence that what they are filling themselves with is influencing their behaviour? (Imitators vs. Innovators)	
What related themes are present in their writings, drawings, etc.?	
Is there evidence of fluidity and/or religiosity?	
What important adult connection(s) could be utilized to stabilize the current situation?	

<b>Series VII-Contextual Factors (Triggers)</b>	<b>Notes:</b>
Has the threat maker experienced a recent loss, such as a death of a family member or friend: a recent break-up; rejection by a peer group; been cut from a sports team; received a rejection notice from a college, university, military, etc?	
Have the parents just divorced or separated?	
Are they victims of child abuse and has the abuse been dormant but resurfaced at this time?	
Are they being initiated into a gang and is it voluntary or forced recruitment?	
Have they recently had an argument or “fight” with a parent/caregiver or someone close to them?	
Have they recently been charged with an offence or been suspended or expelled from school?	
Is the place where they have been suspended to likely to increase or decrease their level of risk?	

**History of behaviour patterns (personal and familial)**

<b>Series IX Questions (Family Dynamics)</b>	<b>Notes:</b>
How many homes does the student (subject) reside in (shared custody, goes back and forth from parent to grandparent's home)?	
Is the student (subject) connected to a healthy/mature adult in the home?	
Who all lives in the family home (full-time and part-time)? Has anyone entered or left the home that may be influencing level of risk?	
Who seems to be in charge of the family and how often are they around?	
Has the student engaged in violence or threats of violence towards their siblings or parent(s)/caregiver(s)? if so, what form of violence and to whom including: Frequency, Intensity, Recency (FIR)?	
What is the historical baseline at home? What is the current baseline at home? Is there evidence of evolution at home?	
Are parent(s) or caregiver(s) concerned for their own safety or the safety of their children or others?	
Does the students level or risk (at home, school, or the community) cycle according to who is in the home (i.e. the student is low risk for violence when his/her father is home but high risk during the times their father travels away from home for work)?	
Does the student have a history of trauma? Including car accidents, falls, exposed to violence, abuse, etc?	
Has the student been diagnosed with a DSM IV diagnosis?	
Is there a history of mental health disorders in the family?	
Is there a history of drug or alcohol abuse in the family?	

## Step 7:

**Notify the Threat Maker(s) and Target(s) Parent(s) or Guardian(s) at the earliest opportunity.**

- Parents/guardians have been notified of the situation and this Stage I data collection phase.
- Parents/guardians have NOT been notified because:

## Step 8:

### Other Agencies:

As per the formal signed protocol, other agency partners may be involved in the Stage I VTRA process as consultants to the school/police team and sources of initial data relevant to the case at hand such as past or current involvement by other agencies that once they are informed of the initial school/police data may release necessary information or physically join the team.

Upon receipt of the Stage I data, partner agencies check to see if the student in question is or was a client and then the agencies determine if they are in possession of information that in conjunction with the Stage I data requires them to “disclose”. Generally Stage II VTRA Team designates will report that a record check has been completed and:

- School Administrator calls Officer**
  - There is nothing to report.
  - There is information relevant to the case that needs to be disclosed as per the VTRA Protocol (significant risk of harm to the health or safety of others is present).
  - The risk is not immediate but a Release of Information Form should be requested to allow for a full disclosure of the contents of the file relevant to the case at hand.
- School Social Worker/School Counsellor calls Child and Family Services and request information relevant to the Stage I VTRA data collection.**
  - There is nothing to report.
  - There is information relevant to the case that needs to be disclosed as per the VTRA Protocol (significant risk of harm to the health or safety of others is present).
  - The risk is not immediate but a Release of Information Form should be requested to allow for a full disclosure of the contents of the file relevant to the case at hand.

- School Social Worker/School Counsellor calls Crisis and Intervention Services where applicable and request information relevant to the Stage I VTRA data collection.**
  - There is nothing to report.
  - There is information relevant to the case that needs to be disclosed as per the VTRA Protocol (significant risk of harm to the health or safety of others is present).
  - The risk is not immediate but a Release of Information Form should be requested to allow for a full disclosure of the contents of the file relevant to the case at hand.
  
- School Social Worker/School Counsellor calls Child and Youth Services, Mental Health and Addiction Services and request information relevant to the Stage I VTRA data collection.**
  - There is nothing to report.
  - There is information relevant to the case that needs to be disclosed as per the VTRA Protocol (significant risk of harm to the health or safety of others is present).
  - The risk is not immediate but a Release of Information Form should be requested to allow for a full disclosure of the contents of the file relevant to the case at hand.
  
- School Administrator calls Fire and Protective Services, Fire Stop Program where applicable (when there is an unusual interest in fire starting, or fire starting behaviour).**
  - There is nothing to report.
  - There is information relevant to the case that needs to be disclosed as per the VTRA Protocol (significant risk of harm to the health or safety of others is present).
  - The risk is not immediate but a Release of Information Form should be requested to allow for a full disclosure of the contents of the file relevant to the case at hand.
  
- Others**
  - There is nothing to report.
  - There is information relevant to the case that needs to be disclosed as per the VTRA Protocol (significant risk of harm to the health or safety of others is present).
  - The risk is not immediate but a Release of Information Form should be requested to allow for a full disclosure of the contents of the file relevant to the case at hand.

**Note:**

**At this point of the Stage I process, some initial data may not be available to complete this form but enough information is usually available to determine if 1) an immediate risk is posed and 2) if a Stage II evaluation is required.**

## Step 9:

VTRA Team members collate the data and discuss all relevant information regarding the student. As a team, ask the question: “*To what extent does the student **pose** a threat to school/student safety?*” “Does the student pose a threat to himself/herself or someone outside the school (i.e. family)?” The Stage I Assessment is an overall assessment of current level of risk and is a precursor to (if necessary) a more comprehensive Stage II Risk Evaluation.

### □ Low Level of Concern

Risk to the target(s), students, staff, and school safety is minimal.

- Threat is vague and indirect.
- Categorization of low risk does not imply “no risk” but indicates *the individual* is at little risk for violence.
- Information contained within the threat is inconsistent, implausible or lacks detail; threat lacks realism.
- Available information suggests that the person is unlikely to carry out the threat or become violent.
- Within the general range for typical baseline behaviour for the student in question.
- Monitoring of the matter may be appropriate.

### □ Medium Level of Concern

The threat could be carried out, although it may not appear entirely realistic. Violent action is possible.

Threat is more plausible and concrete than a low level threat. Wording in the threat and information gathered suggests that some thought has been given to

- How the threat will be carried out (e.g., possible place and time).
- No clear indication that the student of concern has taken preparatory steps (e.g., weapon, seeking), although there may be an ambiguous or inconclusive reference pointing to that possibility. There may be a specific statement seeking to convey that the threat is not empty: “I’m serious!”
  - A moderate or lingering concern about the student’s potential to act violently.
  - Increase in baseline behaviour.
- Categorization of risk indicates *the individual* is at an elevated risk for violence, and those measures currently in place or further measures, including monitoring, are required in an effort to manage the individual’s future risk.

### □ High Level of Concern

The threat or situation of concern appears to pose an imminent and serious danger to the safety of others.

- Threat is specific and *plausible*. There is an identified target. Student has the *capacity* to act on the threat.
- Information suggests concrete steps have been taken toward acting on threat. For example, information indicates that the student has acquired or practiced with a weapon or has had a victim under surveillance.
- Information suggests strong concern about the student’s potential to act violently.
- Significant increase in baseline behaviour.
- Categorization of risk indicates the individual is at a high or imminent risk for violence.
- Immediate intervention is required to prevent an act of violence from occurring.

\*Sources for the above categorizations represent the work of the FBI, Durham Regional Police Service, Ontario Provincial Police Threat Assessment Unit, and the Canadian Centre for Threat Assessment and Trauma Response.

## Step 10:

### Decide on a Course of Action

#### **Are there risk reducing interventions that need to be put in place immediately?**

With the input of all Threat Assessment Team members, decide on a course of action. If there is a low to medium level of concern, the student can likely be managed at school with appropriate (increased) supervision.

#### **Low to Medium Level of Concern**

- Implement the Intervention Plan (*Most students can be managed at school with interventions.*)

#### **Medium to High Level of Concern**

- The Threat Assessment Team will consult with the Superintendent of Education and Student Services Support to determine if a Stage II VTRA is needed.

**Step 11:**

**Develop a Stage I Intervention Plan and determine if Stage II Risk Evaluation and Longer Term Treatment Planning is required.**

Use the following Intervention Plan to address all concerns identified during the Stage I Assessment.

**Stage I Intervention Plan (attach additional pages as needed)**

- Disciplinary action taken:
- Intended victim warned and/or parents or guardians notified:
- Suicide assessment initiated on:
- Suicide assessment initiated by:
- Contract not to harm self or others created (please attach).
- Alert staff and teachers on a need-to-know basis.
- Daily or Weekly check-in with (Title/Name):
- Travel card to hold accountable for whereabouts and on-time arrival to destinations.
- Backpack, coat and other belongings check-in and check-out by:
- Late arrival and/or early dismissal.
- Increased supervision in these settings:
- Modify daily schedule by:
- Behaviour plan (attach a copy to this Threat Assessment).
- Drug and/or alcohol intervention with:
- Referral to school resource team to consider possible Special Education Assessment.
- If Special Education student, review PPP goals and placement options.
- Review community-based resources and intervention with parents/guardians.
- Obtain permission to share information with community partners such as counselors and therapist (See Division Release of Information Form)
- Other action:

**Monitor this intervention plan regularly and modify it as appropriate with a formal review no later than six weeks and six months.**

- School Administrator to diarize review dates to occur on \_\_\_\_\_(6 week) and \_\_\_\_\_(6 month).

**PARENT/GUARDIANS (attach additional pages as needed)**

- Parents/guardians will provide the following supervision and/or intervention:
- Parents/guardians will:

**VTRA Team Members**

**Principal or Vice-Principal:** \_\_\_\_\_
